YOUR GUIDE TO TEXAS A&M IT

Texas A&M Technology Services wants to make sure you're set up for success with insider tips on the most important IT services at Texas A&M.

## Stay Cyber Secure While Traveling for Spring Break

Protect your data, especially on the go. Spring Break is a popular time for traveling. [Use these tips](#) to stay cyber secure and protect your data while traveling, especially if you're leaving the country.

## Help Desk Central — Tech Help When You Need IT

Help Desk Central is here to answer your tech questions any time, day or night, by phone, email, online chat or in person at [it.tamu.edu/help](http://it.tamu.edu/help). Throughout the semester, you can find resource tables set up across campus with Help Desk team members ready to answer your questions. Follow us on social media — [Facebook](#) and [Instagram](#) — to learn when a resource table is scheduled and where they will be located.

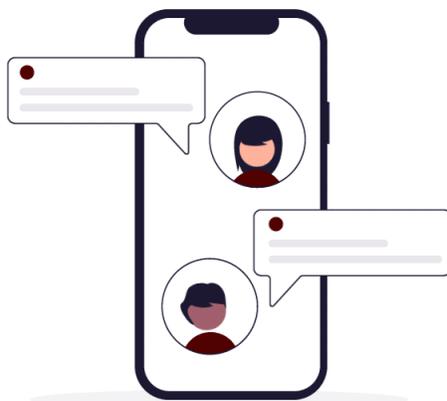

## Graduation Checklist

After graduation, your access to Texas A&M accounts, technology services and software, and even your email will change. Prepare for these changes and preserve your data using the [IT graduation checklist](#). A good time to start is upon applying for graduation.

## LinkedIn Learning

[Log in](#) to learn! LinkedIn Learning has video tutorials on software such as Adobe Creative Cloud, Office 365 and WordPress, as well as personal development courses about leadership, productivity and more. You can associate your personal LinkedIn account with LinkedIn Learning to receive personalized recommendations based on your profile, skills and interests.

## Stay Connected on Campus

[The Texas A&M University mobile app](#) is where you'll find the most up-to-date information for students and visitors. Students can quickly access academic, campus life, safety and other important resources. Download the free app today to stay connected on campus!

Code Maroon is our tool for sharing emergency alerts and updates. Also accessible in the main Texas A&M mobile app, you can opt to receive push notifications or sign up for text message alerts. Remember, a safe Aggie is a smart Aggie. Be prepared and enroll. [Sign up](#) to receive text alerts or emails in case of an emergency.

## Open Access Labs and Aggie Print

At the [Open Access Labs \(OALs\)](#), you can do more than use computers. If you need to print a wide-format display for your poster session or project, OALs can help! [AggiePrint allows on-the-go printing](#) to OAL print kiosks from smartphones, laptops and virtually any device with email capabilities. Each lab provides both color and black-and-white printing to all registered students, faculty and staff using either an OAL computer or by using AggiePrint. Students are given print credits of \$30 per semester and \$15 for the summer.

## Streamlining the Digital Experience

Technology Services is streamlining login screens and moving more products to single sign-on (SSO) to provide a simpler login experience and enhanced security. [Learn more about the process and how this benefits you](#) as a student at Texas A&M.

## Technology Services Part-time Jobs and Internships

Are you seeking a practical learning opportunity aligned with your career aspirations? Technology Services is actively seeking driven students who crave hands-on experience in diverse fields such as networking, cloud computing, security, endpoint management, software development and project management. If you're ready to dive into real-world challenges, explore our open positions today at [Jobs for Aggies](#).
